Sue,

You, Stu and the High Valley Arts Foundation family can count on those of us who have watched, observed and participated with you, in some way, with the ongoing development of quality theater in Wasatch County.

During the past several years my position as managing member of the Zermatt Resort and Spa and The Homestead Resort has enabled our resorts, city and county to realize the economic value of High Valley Arts especially during your professional productions.

The thought of a quality theater in the Midway area that is open during every season multiplies the value of our resorts and surrounding area exponentially.

Thank you for your theater center vision and action that will help change the value for all of us who live in the area and who have personal and professional area interests.

Best Regards,

Steve Eddington
(Former Managing Partner for Zermatt and The Homestead Resorts 2010-2020)
